CAUSE OF THE GRIPPE

How To Escape Its Dangerous After Effects.

With so much grippe prevalent this winter a few words of advice re-garding its cause and treatment will not be out of place. Grippe is an infectious disease easily or run-down condition.

The best means of prevention are to keep the blood in good healthy condition, and if the system gets into a weak, run-down condition, take Vinol, our delicious cod liver and iron tonic.

A lady from Long Branch, N. J., says: "Grippe left me in a nervous, weakened, run-down condition. After taking three bottles of Vinol I am better and stronger than I have been for years, and I cheerfully recommend Vinol to all who have suffered from the grippe and need strength." (Name furnished on request.)

We have never sold in our store such a valuable strength creator and health restorer for the convalescent, the weak and run-down, as Vinol, and your money will be returned if it does not do all we claim for it. Broadway BREATHE HYOMEI FOR CATARRH
